Paul

I'm a real adventure seeker. I want to try all kinds of extreme sports. People think they are dangerous, but when you are careful enough, they aren't.

I'm crazy about extreme sports because I enjoy to see how far I can go. Sports in the air are my favorite. You can feel the adrenaline and enjoy being in the air at the same time, but I don't want to try any underwater sports because I hate them.

Helen

Steve

I think people shouldn't do extreme sports because they can get injured badly. Something can go wrong any time. I have never tried any dangerous sports, and I don't think I will.

I always wanted to test myself against water. It was my dream, so I started to learn diving at age six. Now I'm 34 and I've many championships in several water sports. I really love doing them.

Bungee jumping is one of the most popular extreme sports. People jump from high places such as bridges, towers, tall buildings and hot-air balloons with an elastic rope. When they jump, they should wear special clothes, a helmet and glasses. Modern bungee jumping began when David Kirke and Simon Keeling jumped from Clifton Suspension Bridge in Bristol in 1979. In the same year, AJ Hackett and Henry van Asch joined them, and these four men jumped off the Golden Gate Bridge in San Francisco. In 1987, AJ Hackett became world-famous when he jumped from the Eiffel Tower in Paris. Then, he organized an event and 28 people jumped off a bridge in New Zealand in 1988. He also jumped from the Macau Tower and made the world's highest jump in 2005.
